Military Equipment Funding, Acquisition and Use Policy (Draft Policy)

PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the approval, acquisition, and reporting requirements of “military equipment” as defined in the California Government Code. (See Government Code §§ 7070-7072). The Culver City Police Department does not possess any tactical equipment that it has obtained from the military, nor does it possess any equipment that is designed solely for military use.

PHILOSOPHY

The acquisition of military equipment and its deployment in our communities may impact the public’s safety and welfare. The public has a right to know about any funding, acquisition, or use of military equipment by local government officials, as well as a right to participate in any government agency’s decision to fund, acquire, or use such equipment. Decisions on whether and how to fund, acquire, or use military equipment will be made with strong consideration for the public’s welfare, safety, civil rights, and civil liberties and also account for the public’s input.

Members of the Culver City Police Department will only use military equipment in compliance with federal and state legal authorities, including the Fourth and Fifth Amendments of the U.S. Constitution; Article 1, Section 1 of the California Constitution; Government Codes § 7286 and 12525.2; and California Penal Codes §§ 835a and 13652 as well as the Culver City Police Department’s Duty Manual and General Orders. Members of the Culver City Police Department will only use military equipment consistent with applicable Department rules and regulations, including the Use of Force Policy (Section 300) contained in the Culver City Police Department Duty Manual.

APPROVAL OF THE GOVERNING BODY

The Chief of Police or his/her authorized designee shall seek approval for this policy from the governing body in the form of an ordinance adopting the policy. As part of the approval-seeking process, the Chief of Police, or his/her authorized designee, will submit the proposed military equipment policy to the governing body and make it available on the Department website at least 30 days prior to any public hearing concerning the military equipment at issue (Government Code § 7071).
The governing body must approve the policy prior to the Department or its members engaging in any of the following (Government Code § 7071):

(a) Requesting military equipment made available by the U.S. Department of Defense pursuant to 10 USC § 2576a.

(b) Seeking funds for military equipment, including but not limited to applying for a grant, soliciting, or accepting private, local, state, or federal funds, in-kind donations, or other donations or transfers.

(c) Acquiring military equipment either permanently or temporarily, including by borrowing or leasing.

(d) Collaborating with another law enforcement agency in the deployment or other use of military equipment within the jurisdiction of this department.

(e) Using any new or existing military equipment for a purpose, in a manner, or by a person not previously approved by the governing body.

(f) Soliciting or responding to a proposal for, or entering into an agreement with, any other person or entity to seek funds for, apply to receive, acquire, use, or collaborate in the use of military equipment.

(g) Acquiring military equipment through any means not provided above.

DEFINITIONS

Definitions related to this policy include (Government Code § 7070):

**Governing body** – The City Council of Culver City.

**Military equipment categories** – Includes the following:

- Unmanned, remotely piloted, powered aerial or ground vehicles.
- Mine-resistant ambush-protected (MRAP) vehicles or armored personnel carriers.
- High mobility multipurpose wheeled vehicles (HMMWV), two-and-one-half-ton trucks, five-ton trucks, or wheeled vehicles that have a breaching or entry apparatus attached.
- Tracked armored vehicles that provide ballistic protection to their occupants
- Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.
- Weaponized aircraft, vessels, or vehicles of any kind.
- Battering rams, slugs, and breaching apparatuses that are explosive in nature. This does not include a handheld, one-person ram.
- Firearms and ammunition of .50 caliber or greater, excluding standard-issue shotguns and standard-issue shotgun ammunition.
- Specialized firearms and ammunition of less than .50 caliber, including firearms and accessories identified as assault weapons in Penal Code § 30510 and Penal Code
§ 30515, with the exception of standard-issue handguns.

- Any firearm or firearm accessory that is designed to launch explosive projectiles.
- Noise-flash diversionary devices and explosive breaching tools.
- Munitions containing tear gas or OC, excluding standard, service-issued handheld pepper spray.
- TASER® Shockwave, microwave weapons, water cannons, and long-range acoustic devices (LRADs).
- Kinetic energy weapons and munitions.
- Any other equipment as determined by a governing body or a state agency to require additional oversight.

POLICY

It is the policy of the Culver City Police Department that there are legally enforceable safeguards, including transparency, oversight, and accountability measures in place to protect the public’s welfare, safety, civil rights, and civil liberties before military equipment is funded, acquired, or used.

The Department, through the designated Military Equipment Coordinator, will train members of the Department to use military equipment only in accordance with this Policy, the Culver City Police Department Duty Manual, as well as federal, state, and local laws and ordinances. Members using military equipment for uses not identified as approved uses in the Military Equipment Inventory are subject to discipline, up to and including termination. All instances of non-compliance will be reported to City Council via the annual military equipment report.

The City Council has independent oversight of the Department’s compliance with this Policy.

MILITARY EQUIPMENT COORDINATOR

The Chief of Police will designate a member of this Department to act as the Military Equipment Coordinator ("Coordinator"). The responsibilities of the Coordinator include:

(a) Acting as a liaison to the governing body for matters related to the requirements of this policy.

(b) Identifying Department equipment that qualifies as “military equipment” as defined in Government Code § 7070, in the current possession of the Department, or the equipment the Department intends to acquire, that requires approval by the governing body.

(c) Conducting an inventory of all military equipment at least annually.

(d) Collaborating with any allied agency that may use military equipment within the jurisdiction of Culver City Police Department (Government Code § 7071).

(e) Preparing for, scheduling, and coordinating the annual community engagement meeting to include:

1. Publicizing the details of the meeting.

2. Preparing for public questions regarding the department’s funding, acquisition, and use of equipment.
(f) Preparing the annual military equipment report for submission to the Chief of Police Use of force and ensuring that the report is made available on the department website (Government Code § 7072).

(g) Receive and timely response to public concerns, complaints, or questions regarding the use of military equipment.

PUBLIC COMPLAINTS, CONCERNS, AND QUESTIONS
Concerns, complaints, and questions regarding the use of military equipment may be submitted in writing to:

Attn: Military Equipment Coordinator
4040 Duquesne Ave, Culver City, CA 90232
Email: Chief.police@culvercity.org

Telephonic complaints regarding the use of military equipment may be made by calling the Culver City Police Department Professional Standards Unit at (310) 253-6211.

Whenever practical, the Coordinator will respond to concerns, complaints, and questions within 30 calendar days of receipt. As outlined in Culver City Duty Manual Section 1008, all complaints will be thoroughly investigated in accordance with federal, state, local laws, and ordinances.

The Coordinator will track complaints, concerns, questions received, and the responses provided, in order to be able to include the information in the Annual Report described below.

MILITARY EQUIPMENT INVENTORY
The following constitutes a list of qualifying equipment in the possession of the Department:

See the section labeled: MILITARY EQUIPMENT INVENTORY.

COORDINATION WITH OTHER JURISDICTIONS
Culver City Police Department will not collaborate with other law enforcement agencies to use military equipment in this jurisdiction unless the military equipment is approved for use and used in accordance with this policy. The following constitutes a list of qualifying equipment in the Department’s possession that may be used in collaboration with another Department:

See attachment: MILITARY EQUIPMENT NOT OWNED BY DEPARTMENT SUBJECT TO COLLABORATIVE USE.pdf

ANNUAL REPORT
Upon approval of the military equipment policy, the Chief of Police or their authorized designee will submit a military equipment report to the governing body for each type of military equipment approved within one year of approval and annually thereafter, for as long as the military equipment is available for use (Government Code § 7072).

The annual military use equipment report will include, for each type of military equipment:

(1) A summary of how the military equipment was used and the purpose of its use.
(2) A summary of any complaints or concerns received concerning the military equipment.

(3) The results of any internal audits, any information about violations of the military equipment use policy, and any actions taken in response.

(4) The total annual costs for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the annual military equipment report.

(5) The quantity possessed for each type of military equipment.

(6) If the law enforcement agency intends to acquire additional military equipment in the next year, the quantity sought for each type of military equipment.

The Chief of Police or the authorized designee will make each annual military equipment report publicly available on the department website for as long as the military equipment is available for use. The report shall include all information required by Government Code § 7072 for the preceding calendar year for each type of military equipment in department inventory.

COMMUNITY ENGAGEMENT

Within 30 days of submitting and publicly releasing the annual report, the Department will hold at least one well-publicized and conveniently located community engagement meeting, at which the Department will discuss the report and respond to public questions regarding the funding, acquisition, or use of military equipment.
1. Robot (Category 1): Not yet obtained. To be purchased after the acquisition of approved grant funds.
   a. Description, quantity, capabilities, and purchase cost:
      The Transcend Tactical Vantage F3 Robot is a remotely controlled unmanned machine that operates on the ground, which is utilized to enhance the safety of the community and officers. This device can be remotely operated from many hundred meters away, providing protection and safety to their operators. The utilization of this Robot allows for de-escalation and the peaceful surrender and arrest of a violent suspect while reducing the potential of an armed confrontation with officers that may lead to a lethal conclusion.
   b. Purpose:
      To be used as a de-escalation tool and to remotely gain visual/audio data, deliver CNT phone, open doors, disrupt packages, clear buildings, and administer tear gas during a barricaded suspect incident (with explicit direction form Bureau Commander or Police Chief). While remote observation is the primary function of the Robot, these auxiliary roles of transporting communication devices or other resources (such as food or water) into an inherently unstable situation, will help promote a peaceful conclusion.
   c. Authorized Use:
      I. Can be operated after supervisor approval and only by trained officers during critical incidents or pre-planned tactical operations.
      II. During Department-approved training exercises.
      III. The Gas Deployment Accessory can only be used after approval from a Bureau Commander or Chief of Police.
      IV. In compliance with Department policy and procedures, as well as federal, state, and local laws and ordinances.
   d. Expected Lifespan:
      N/A
   e. Fiscal Impact:
      Robot: $25,000.00
      Gas Deployment Accessory: $6,000.00
      NOTE: Robot and Accessory will be fully funded by Urban Areas Security Initiative (UASI) program grant.

2. Unmanned Aerial Vehicles (Category 1)
   a. Description, quantity, capabilities, and purchase cost:
      1. DJI Matrice 210 unmanned aerial vehicle (UAV) Cost: $7422.80 each. Quantity: 2. The DJI Matrice 210 is a commercial-grade UAV. This UAV is a battery-powered, remote-operated device. Controller: GL800A Cendence controller with tablet holder attachment. The controller allows operators to control UAV and view
a live feed from UAV-mounted cameras through an attached and connected tablet. Cameras (2): Zenmuse Z30 RGB camera and Zenmuse XT camera with FLIR capabilities. The cameras allow operators to switch between standard RGB cameras and views based on the heat of objects within the frame. Flight time of approximately 15-25 minutes per battery, depending on weather and flight conditions. Capabilities: Commonly used by construction and utility companies for the inspection of buildings, powerlines, windmills, and other infrastructure. This UAV has also proven to be useful to public safety agencies in firefighting, search and rescue, pre-operational intelligence, and other tactical situations where aerial views enhance the safety and efficiency of law enforcement and fire personnel. The manufacturer’s description is attached.

2. DJI Mavic 2 Enterprise Advanced unmanned aerial vehicle (UAV), cost: $6240.00 each. Quantity: 4. The DJI Mavic 2 Enterprise Advanced is a commercial-grade UAV. This UAV is a battery-powered, remote-operated device. Controller: DJI Smart Controller All-in-one controller with 5.5- inch integrated screen. The controller allows operators to control UAV and view a live feed from UAV-mounted cameras. Cameras: Integrated M2EA camera with dual RGB and FLIR capabilities. The camera provides operators with the ability to switch between standard RGB camera and views based on the heat of objects within frame. Flight time of approximately 25-30 minutes per battery, depending on weather and flight conditions. Commonly used by construction and utility companies for the inspection of buildings, powerlines, windmills, and other infrastructure. This UAV has also proven to be useful to public safety agencies in firefighting, search and rescue, pre-operational intelligence, and other tactical situations where aerial views enhance the safety and efficiency of law enforcement and fire personnel. The manufacturer’s description is attached.

3. DJI Phantom Pro 4 unmanned aerial vehicle (UAV), cost: $1566.40 each. Quantity: 2. The DJI Phantom Pro 4 is a commercial-grade UAV. This UAV is a battery-powered, remote-operated device. Controller: DJI GL300F controller with tablet holder attachment. The controller allows operators to control UAV and view a live feed from UAV-mounted cameras through an attached and connected tablet. Cameras: Integrated camera with RGB capabilities. Flight time of approximately 25-30 minutes per battery, depending on weather and flight conditions. Commonly used by construction and utility companies for the inspection of buildings, powerlines, windmills, and other infrastructure. This UAV has also proven to be useful to public safety agencies in firefighting, search and rescue, pre-operational intelligence, and other tactical situations where aerial views enhance the safety and efficiency of law enforcement and fire personnel. The manufacturer’s description is attached.

4. Sky-Hero Loki Mk2 unmanned aerial vehicle (UAV) Cost: $9750.00. Quantity: 2 (sold as a set //two aircraft, one controller). The Sky-Hero Loki Mk2 is a commercial-grade UAV. This UAV is a battery-powered, remote-operated device. Controller: Sky-Hero controller with 5- inch integrated screen. The controller allows operators to control UAV and view a live feed from UAV-mounted cameras. Cameras: Integrated camera with dual RGB and IR capabilities. The cameras provide operators with the ability to see in low-light indoor environments. Flight time of approximately 15 minutes per battery. This UAV is a specialized indoor tactical reconnaissance vehicle. Intended use is for public safety agencies in indoor tactical operations, where the view from an unmanned vehicle will significantly enhance the safety of law enforcement personnel and others within
the operational area. The manufacturer's description is attached.

b. **Purpose:**
To be deployed when its view would assist officers or incident commanders with the following situations, which include:

I. Barricaded Suspects  
II. Active Shooter/Mass Casualty Incidents  
III. Hostage Situations  
IV. Crime Scene Investigations  
V. Search & Rescue Operations  
VI. Fires  
VII. Disaster Management  
VIII. CBRNE Incident (chemical, biological, radiological, nuclear, and/or explosive)  
IX. Supporting Search and Arrest Warrant Operations  
X. Perimeter Searches for Armed and/or Felony Suspects  
XI. Routine Training (public places)

c. **Authorized Use:**
I. Only assigned operators who have completed the required FAA training and have a current FAA Part 107 Remote Pilot Certificate shall be permitted to operate the above-listed UAVs during approved missions.

II. Requests to deploy the UAV shall be approved by the on-duty Watch Commander, supervisor on scene, or the UAV Manager prior to accepting the mission.

III. In compliance with Department Policy 349 (Unmanned Aerial Vehicle Operations), as well as federal, state, and local laws and ordinances.

d. **Expected Lifespan:**
10 years

e. **Fiscal Impact:**
No known annual maintenance cost.

3. Armored Personnel Carrier (Category 2 & 3)
a. **Description, quantity, capabilities, and purchase cost:**
Two (2) Ford Transit Vans 350HD, extended roof, V6, 6-speed automatic, outfitted and equipped with the following: NIJ III level vehicle armoring, 360-degree exterior camera system, upgraded HD hinges, breaching tool storage, rear bench seating with seatbelts, interior grab rails, automatic door opening system, rear compartment A/C and heater, medical supplies and equipment, HD tires with run-flat tire inserts, HD removable side, and rear steps, front push-bars, custom exterior side grab rails, emergency roof escape hatch, police lights and siren packages, police communication radios (front & rear) and ATF approved bench storages.

Both armored vans seat 10-12 people with an open floor plan that allows for the rescue of down personnel. In addition, the vans can stop various projectiles, which provides greater safety to citizens, officers, and EMS personnel beyond the protection level of a shield and/or personal body armor.
b. **Purpose:**
To be deployed when it would assist officers, EMS personnel, or the Incident Commander with the following situations, which include:

I. Active shooter/mass casualty incidents
II. Rescue operations
III. Supporting search and arrest warrant operations
IV. Barricaded suspect operations
V. Hostage operations
VI. During encounters with self-destructive, violent, dangerous, and/or combative subjects
VII. During department-approved training exercises

c. **Authorized Use:**

I. Armored vans will be deployed by officers who have received department training in the vans' operation.
II. The driver of the vehicle shall have a valid California driver’s license (class C)
III. The on-duty Watch Commander shall approve requests to deploy an armored van(s)

d. **Expected Lifespan:**
7-10 years (*depending on usage and normal wear and tear*)

e. **Fiscal Impact:**
Two (2) Ford Transit Vans 350HD cost: $427,000 (Asset forfeiture funds). Annual maintenance costs $6,000 each.

4. **Tracked Armored Vehicles (Category 4)**
   a. **Description, quantity, capabilities, and purchase cost:**
      NONE

   b. **Purpose:**
      N/A

   c. **Authorized Use:**
      N/A

   d. **Expected Lifespan:**
      N/A

   e. **Fiscal Impact:**
      N/A

5. **Command and Control Vehicles (Category 5)**
   a. **Description, quantity, capabilities, and purchase cost:**
      Command Post Mobile Trailer: 2020 Forest River 30ft trailer w/ 2 Axles. There is no cost for the trailer as the State of California donated it. The trailer will be equipped with 3 monitors (2 interior/1 exterior), desks, chairs, IP phones, exterior spotlight, soundproof room, and initial wiring for a computer setup.

   b. **Purpose:**
      To be utilized during critical incidents, major disasters, pre-planned high-risk warrant operations, large-scale pre-planned events, natural disasters, and public
relations/community outreach events.

c. **Authorized Use:**
   IV. The Command Post Mobile trailer will be deployed by officers and staff who have received department training in pulling/deploying trailers.
   V. The driver of the vehicle shall have a valid California driver's license (class C)
   VI. In compliance with Department Policy 703 (Vehicle Use), as well as federal, state, and local laws and ordinances.

d. **Expected Lifespan:**
   30-year life span

e. **Fiscal Impact:**
   Retrofitting cost $15,894.15.

6. Weaponized aircraft or vessel (Category 6)
   a. **Description, quantity, capabilities, and purchase cost:**
      NONE
   
   b. **Purpose:**
      N/A

c. **Authorized Use:**
   N/A

7. Breaching Apparatus: Slugs, Energetic Breaching Program (Category 7)
   a. **Description, quantity, capabilities, and purchase cost:**
      NONE
   
   b. **Purpose:**
      N/A

c. **Authorized Use:**
   N/A

8. **Expected Lifespan:**
   N/A

e. **Fiscal Impact**
   N/A

8. Firearms and ammunition of .50 caliber or greater, excluding standard-issue shotguns and standard-issue shotgun ammunition (Equipment Category 8)
   a. **Description, quantity, capabilities, and purchase cost:**
      NONE
b. **Purpose:**
N/A

c. **Authorized Use:**
N/A

d. **Expected Lifespan:**
N/A

e. **Fiscal Impact:**
N/A

9. Specialized Firearms and Ammunition (Category 9)
a. **Description, quantity, capabilities, and purchase cost:**
   
I. The Carbine Rifle is a firearm capable of accurately stopping an armed subject at various distances. The Carbine Rifle is a lightweight, air-cooled, magazine-fed, shoulder-fired weapon designed for semi-automatic fire. The .223 / 5.56 cartridge is used as a lethal option designed to stop a violent encounter. The projectile is capable of penetrating soft body armor being worn by armed subjects. Total Quantity: 123 (LWRCI M6IC-DI, quantity: 99; LWRCI M6IC-G, quantity: 15; Colt Commando, quantity: 1; Colt M4 Carbine, quantity: 4; Colt Sporter Lightweight, quantity: 1; Bushmaster XM15-E2S, quantity: 2; Double Star 15, quantity: 1). The manufacturer's description is attached.

II. The Hornady 556 NATO, 75 grain, BTHP Tap Precision cartridge is the primary duty ammunition deployed during potential lethal encounters. Quantity: 2,200 rounds. The manufacturer's description is attached.

III. The Hornady 556 NATO, 75 grain, Tap SBR cartridge is the primary training ammunition for the department. Quantity: 4,500 rounds. The manufacturer's description is attached.

IV. The Winchester .223 Remington, 55 grain, Ranger RA223SF cartridge is the secondary training ammunition for the department, designated for indoor shooting. Quantity: 7,600 rounds. The manufacturer's description is attached.

V. The Sniper Rifle is a firearm used by ERT operators who are supplementally trained to engage armed suspects from a safe distance. Daniel Defense DD5V4; Caliber: 7.62 x 51mm; quantity: 2. The manufacturer's description is attached.

b. **Purpose:**
To be used as precision weapons to address a deadly threat with more precision and/or greater distances than a handgun, if present and feasible. Guns that are fired from shoulder level have a longer, grooved barrel intended to make bullets spin and thereby have greater accuracy over a long distance. Potential applications include hostage situations and an active shooter.

c. **Authorized Use:**
   
I. Only members that have completed a POST-certified rifle course and, on an annual basis

II. Having completed the department-approved range qualification, with the department's range staff are authorized to deploy a rifle.
III. In compliance with Department Policies 307 (Firearms), 416 (Rifles), and 300 (Use of Force), as well as federal, state, and local laws and ordinances.

d. **Expected Lifespan:**
   I. Carbine Rifle - No expiration (serviced or replaced when it fails or breaks)
   II. The Hornady 556 NATO, 75 grain, BTHP Tap Precision cartridge - 15 years
   III. The Hornady 556 NATO, 75 grain, Tap SBR cartridge - 15 years
   IV. The Winchester .223 Remington, 55 grain, Ranger RA223SF cartridge - 15 years
   V. Sniper Rifle - No expiration (service or replaced when it fails or breaks)

e. **Fiscal Impact:**
   I. Carbine Rifle – No annual cost unless replacement purchases are necessary (Purchase price: $1,554.96 each)
   II. The Hornady 556 NATO, 75 grain, BTHP Tap Precision cartridge - Annual cost approximately $6,250.00
   III. The Hornady 556 NATO, 75 grain, Tap SBR cartridge - Annual cost approximately $2,954.00
   IV. The Winchester .223 Remington, 55 grain, Ranger RA223SF cartridge - Annual cost approximately $6,810.00
   V. Sniper Rifle - No annual cost unless replacement purchases are necessary (Purchase price: $1,949.22 each)

9. Any firearm or firearm accessory designed to launch explosives (Category 10)
   a. **Description, quantity, capabilities, and purchase cost:**
      NONE

   b. **Purpose:**
      N/A

   c. **Authorized Use:**
      N/A

   d. **Expected Lifespan:**
      N/A

   e. **Fiscal Impact:**
      N/A

10. Noise Flash Diversionary Device (Flashbangs) (Category 11)
   a. **Description, quantity, capabilities, and purchase cost:**
      A Noise Flash Diversionary Device (NFDD) is a device that creates a bright flash and loud sound to temporarily divert the attention of subjects in the immediate area. NFDDs are used to distract and temporarily disorient dangerous suspects by overwhelming their senses of vision and hearing. The distraction allows officers to seize a moment of opportunity to take control of high-risk situations.

      I. NFDD Defense Technology 8901SC emits a loud “bang” and a flash of light.
      Quantity: 50

   b. **Purpose:**
      A distraction device is ideal for distracting dangerous suspects during assaults,
hostage rescue, room entry or other high-risk arrest situations. To produce atmospheric over-pressure and brilliant white light and, as a result, can cause short-term (6-8 seconds) physiological/psychological, sensory deprivation to give officers a tactical advantage.

c. **Authorized Use:**
Diversionary Devices shall only be used:

I. During encounters with self-destructive, violent, dangerous and/or combative subjects.
II. By ERT officers who have been trained in their proper use in accordance with POST guidelines and received annual training by a POST-certified instructor.
III. Circumstances where the Emergency Response Team members can obtain tactical advantage during the following critical incidents: Barricaded violent felony suspect, vehicle barricade of a felony suspect, active shooter, or a hostage rescue operation.
IV. During department-approved training exercises.
V. NFDDs shall not be used for crowd dispersal.
VI. All uses of NFDDs must first be approved by a Bureau Captain.
VII. In compliance with department policy (705 Noise Flash Diversionary Devices) as well as federal, state, and local laws and ordinances.

d. **Expected Lifespan:**
NFDD Defense Technology 8901SC - 5 years

e. **Fiscal Impact:**
NFDD Defense Technology 8901SC – annual cost approximately $283.00

11. **Tear Gas (Category 12)**
a. **Description, quantity, capabilities, and purchase cost:**
Chemical agent munitions, which are commonly referred to as “tear gas,” are used by the Culver City Police Department as a non-lethal tool to disperse violent suspect(s) and/or on a felony barricaded suspect(s) to cause barricaded suspects to exit the barricaded structure/location. All chemical agents will be used only in compliance with Penal Code section 13652 and Government Code Section 12525.2.

The Culver City Police Department uses chemical agents which are used by law enforcement across the United States: CS (2-Chlorobenzylidenemalononitrile) and OC (Oleoresin Capsicum).

CS is an irritating agent and lachrymator that irritates the eyes and causes tears to flow. CS has been medically tested in the U.K. and U.S., specifically by the U.S. Army. There are no known allergic reactions to CS.

OC was de-regulated in California in 1996, is endorsed by the FBI, and is available to civilians to legally possess (2.5oz or less). OC is an inflammatory agent which causes involuntary closure of eyes for a duration of 2 to 5 minutes and respiratory inflammation, which subsides in approximately 2 minutes.

I. CTS Combined Tactical Systems 5230B - Pyrotechnic grenade designed for indoor use delivering a maximum amount of irritant smoke throughout multiple
rooms with minimal risk of fire. Quantity: 18

II. Defense Technology Spede-Heat™ - 40mm short-range CS round incorporates an aluminum shell and utilizes black powder as the propellant. The Spede-Heat™ 40mm short-range round is designed to deliver one dual-ported chemical canister from a 40mm launcher 75 yards to the intended target zone. Quantity: 15

III. Defense Technology Pocket Tactical – pyrotechnic grenade that is designed as a signaling or covering device. Quantity: 2

b. **Purpose:**
To act as, and shall be limited to, a de-escalation and less lethal option during the following situations:

I. Self-destructive, dangerous, violent, and/or physically combative individuals.
II. Violent riotous crowd control incidents when such weapons are necessary to defend against a threat to life or serious bodily injury to any individual, including a peace officer, or to bring a violent, dangerous and unlawful situation safely and effectively under control. Tear gas shall not be used against individuals or groups who merely fail to disperse or do not reasonably appear to present a risk to the safety of officers or the public.
III. Circumstances where members of the Emergency Response Team can obtain a tactical advantage during the following critical incidents: Barricaded violent felony suspect, vehicle barricade of a felony suspect, active shooter, or a hostage rescue operation.
IV. Potentially vicious animals.
V. Department-approved training exercises

c. **Authorized Use:**
I. Chemical Agents shall only be used by officers who have received POST certification in the use of chemical agents and in a manner consistent with Department policy.
II. Use of chemical agents for the dispersal of riotous crowds must first be approved by the Chief of Police.
III. All other approved use of tear gas must first be approved by a Bureau Captain.
IV. During department-approved training exercises
V. In compliance with Department Policies 350, (Control Devices/Chemical Agents) and 300 (Use of Force) as well as federal, state, and local laws and ordinances.

d. **Expected Lifespan:**
I. CTS Combined Tactical Systems 5230B - 5 years
II. Defense Technology Spede-Heat™ - 5 years
III. Defense Technology Pocket Tactical - 5 years

e. **Fiscal Impact:**
I. CTS Combined Tactical Systems 5230B - annual cost between $0 and $360.00
II. Defense Technology Spede-Heat™ - annual cost between $0 and $346.00
III. Defense Technology Pocket Tactical - annual cost between $0 and $250.00

12. PepperBall Launcher (Category 12)
a. **Description, quantity, capabilities, and purchase cost:**
A system that uses high-pressure air to deliver PAVA powder projectiles (similar to a paintball delivery system). This system can launch projectiles at a subject up to 60'. In addition, the system is capable of area saturation up to 150'. Non-lethal option offers law enforcement officers to deliver chemical agents and kinetic energy impacts to subjects in a potentially violent encounter. De-escalation tools are used to avoid further injuries or lethal options on a subject.

   I. PepperBall TAC-SA™ Launcher — a semi-automatic platform that can fire multiple projectiles over expansive areas. Quantity: 4
   II. Byrna SD Pepper Ball Launcher — semi-automatic (pistol-style) platform that can fire multiple projectiles. Quantity: 3
   III. PepperBall Live Projectile - designed for direct impact and area saturation, especially in confined, interior spaces. The projectile has a direct impact of 30 ft and an area of saturation of 150+ft. The projectile contains 0.5% PAVA Powder. Quantity:1500 rounds
   IV. PepperBall Live-X Projectile - contains approximately 10x the PAVA of the Live projectile. This projectile is designed for direct impact or area saturation. The projectile has a direct impact of 60 ft and an area of saturation of 150+ft. The projectile contains 5% PAVA powder. Quantity: 3000 rounds

b. **Purpose:**
To act as, and shall be limited to, a de-escalation and less lethal option during the following situations:

   I. Self-destructive, violent, dangerous and/or combative individuals.
   II. Riot/crowd control and civil unrest incidents when such weapons are deemed necessary to defend against a threat to life or serious bodily injury to any individual, including a peace officer, or to bring an objectively dangerous and unlawful situation safely and effectively under control.
   III. Potentially vicious animals.
   IV. Department-approved training exercises.

c. **Authorized Use:**

   I. Only by officers who have been trained in the use of PepperBall Launchers, in a manner consistent with Department policy, are authorized to use PepperBall Launchers.
   II. Deployment and use of the PepperBall launcher must first be approved by the on-duty Watch Commander or the on-scene Field Supervisor.
   III. Use of the PepperBall launcher for dispersal of riotous crowds must first be approved by the Chief of Police.
   VI. In compliance with Department Policies 304, (Control Devices-Impact Weapons), 350 (Control Devices -Chemical Agents), and 300 (Use of Force) as well as federal, state, and local laws and ordinances.

d. **Expected Lifespan:**

   I. PepperBall TAC-SA™ Launcher - No expiration
   II. Byrna SD Pepper Ball Launcher - No expiration
   III. Live Projectile - 1 year
   IV. Live-X Projectile - 1 year

e. **Fiscal Impact:**

   I. PepperBall TAC-SA™ Launcher - No annual cost unless replacement purchases are necessary (Purchase price: $1,599.95)
   II. Byrna SD Pepper Ball Launcher – No annual cost unless replacement
purchases are necessary (Purchase price: $349.00)
III. Live Projectile – annual cost approximately $1,928.00
IV. Live-X Projectile – annual cost approximately $1,928.00

13. Taser Shockwave, microwave weapons, water cannons, and the Long-Range Acoustic Device (LRAD) (Category 13)
a. Description, quantity, capabilities, and purchase cost:
NONE

b. Purpose:
N/A

c. Authorized Use:
N/A

d. Expected Lifespan:
N/A

e. Fiscal Impact:
N/A

14. Projectile Launch platforms and associated munitions (Category 14)
a. Description, quantity, capabilities, and purchase cost:
The Projectile Launcher is not a firearm, but a Less-Lethal system that uses smokeless powder to deliver 40MM projectiles from a safe distance. The Less-Lethal launcher is capable of launching 40MM munitions at a subject up to 25 yards.
   I. B&T GL06 40MM Launcher, Quantity: 2
   II. Defense Technology Model 40 Launcher, Quantity: 6
   III. Defense Technology 6325 (Sponge Round) Projectile - 40mm direct-fire round has a plastic body and sponge nose designed for crowd control, patrol, and tactical applications.
   IV. Defense Technology OC Crushable Projectile - 40 mm short-range round is a direct-fire munition that is designed to emit an irritant powder upon impact. Quantity: 26
   V. Defense Technology 6297 Projectile - contains 60-caliber rubber balls designed for crowd management

b. Purpose:
To act as, and shall be limited to, a de-escalation and less lethal option during the following situations:

I. Self-destructive, violent, dangerous and/or combative individuals.
II. Riot/crowd control and civil unrest incidents when such weapons are deemed necessary to defend against a threat to life or serious bodily injury to any individual, including a peace officer, or to bring an objectively dangerous and unlawful situation safely and effectively under control.
III. Potentially vicious animals.
IV. Department-approved training exercises.

c. Authorized Use:
I. Only those officers who have been trained in the use of Projectile Launchers are authorized to use the Projectile Launchers, in a manner consistent with
Department policy.

II. Use for dispersal of riotous crowds must first be approved by the Chief of Police
III. All other use of Projectile Launchers must first be approved by the on-duty
Watch Commander or the on-scene Field Supervisor.
IV. In compliance with Department Policies 304, (Control Devices-Impact Weapons) and 300 (Use of Force) as well as federal, state, and local laws and ordinances.

d. **Expected Lifespan:**
   I. B&T GL06 40MM Launcher - No expiration
   II. Defense Technology Model 40 Launcher - No expiration
   III. Defense Technology 6325 (Sponge Round) Projectile - 5 years
   IV. Defense Technology OC Crushable Projectile - 5 years
   V. Defense Technology 6297 Projectile - 5 years

e. **Fiscal Impact:**
   I. B&T GL06 40MM Launcher – No annual cost unless replacement purchases are necessary (Purchase price: $1,375.00)
   II. Defense Technology Model 40 Launcher – No annual cost unless replacement purchases are necessary (Purchase price: $605.00)
   III. Defense Technology 6325 (Sponge Round) Projectile – annual cost approximately $2,650 [per quantity]
   IV. Defense Technology OC Crushable Projectile – annual cost approximately $265.00 [per quantity]
   V. Defense Technology 6297 Projectile-annual cost approximately $22.00 [per quantity]

**MILITARY EQUIPMENT NOT OWNED BY DEPARTMENT SUBJECT TO COLLABORATIVE USE (Equipment Category 15)**

The purpose of this section is to identify any defined military equipment that could possibly be used in Culver City, by a neighboring law enforcement agency, during a critical incident. Such critical incidents should be limited to high-risk search warrant operations, barricaded felony suspect, active shooter, bomb threat/suspicious package, or joint training exercise. Note that the below-described equipment is not owned by the Department or operated by Culver City Police Department personnel.

2. **Robot (Category 1)**
   a. **Description, quantity, capabilities, and purchase cost:**
      A remotely controlled unmanned machine that operates the ground, which is utilized to enhance the safety of the community and officers. This device can be remotely operated from many hundred meters away, providing protection and safety to their operators. There is no cost to the Culver City Police Department for a neighboring agency use in this jurisdiction.

   b. **Purpose:**
      To be used to remotely gain visual/audio data, deliver CNT phone, open doors, disrupt
packages, and clear buildings.

c. **Authorized Use:**
   V. Only by a neighboring police agency in accordance with their existing policies and procedures.
   VI. Approval to use a robot in Culver City, or in collaboration with the Culver City Police Department, must first be approved by a Bureau Captain and only during critical incidents.
   VII. During Department-approved training exercises.

d. **Expected Lifespan:**
   N/A

e. **Fiscal Impact:**
   N/A

3. Armored Personnel Carrier (Category 2 & 3)
   a. **Description, quantity, capabilities, and purchase cost:**
      An armored vehicle that seats 10-12 personnel with an open floor plan that allows for rescue of down personnel. It can stop various projectiles, which provides greater safety to citizens and officers beyond the protection level of a shield and personal body armor.

   b. **Purpose:**
      To be used in response to critical incidents to enhance officer and community safety, improve scene containment and stabilization, and assist in resolving critical incidents.

   c. **Authorized Use:**
      I. Only by a neighboring police agency in accordance with their existing policies and procedures.
      II. Approval to deploy an Armored Personnel Carrier in Culver City, or in collaboration with the Culver City Police Department, must first be approved by a Bureau Captain and only during critical incidents.
      III. During Department-approved training exercises.

d. **Expected Lifespan:**
   N/A

e. **Fiscal Impact:**
   N/A

Abbreviations:
HE: High Explosive. Warhead grenades, working at high pressure level.
LL: Less lethal. Munitions working at pressure levels 4 to 5 times lower than HE grenades.
1. General description

The GL-06 grenade launcher is intended to serve as a supplemental or squad weapon with less lethal munitions for all types of crowd management and law enforcement tasks. The GL-06 is designed as a single shot break down weapon. Due to its design and strength of materials, the launcher works with all kind of 40 x 46 mm ammunitions. The trigger is of double-action-only style with non-exposed hammer for safe and simple operation. There are different stock configurations, integrated NATO accessory rails and the possibility to install more rails and accessories to optimize the launcher specifically to each mission. The ergonomics are state of the art: red dot sight for fast and accurate target acquisition, left and right side sling attachment points, large ambidextrous operating elements and a wide trigger guard for easy operation even with heavy protective gloves.
2. Nomenclature and technical data

- Fully adjustable red dot sight
- Barrel with top accessory rail
- Protected front sight
- Adjustable rear sight
- Access safety
- Fore end with accessory rails and protectors
- Ambidextrous breech lever
- Folding stock
- Trigger guard
- Trigger
- Pistol grip

3. Operating principle

When the weapon is closed, the locking lug under the barrel is held in position by the two locking latches and the barrel is locked (ref. fig. 3.1). When pushing the breech lever forward, a rising wedge is spreading the two latches like a couple of shears, releasing the locking lug and thus unlocking the barrel (fig. 3.1). By the force of the barrel spring, the barrel snaps open and can be loaded manually.

When the launcher is loaded, the operator can release the shot simply by pulling the double action only trigger (fig. 3.2). The firing pin (part of the hammer) touches the primer of the cartridge only when the trigger releases the covert hammer, then it snaps immediately back in a safe position.
In order to increase the operational safety of the launcher, a manual push-through safety is available which locks the hammer with the firing pin in safe distance of the primer. Some comments about the operating principle of 40 x 46 mm grenades: Unlike conventional small arms cartridges, the case shows two chambers (see fig. 3.3). When the firing pin strikes on the primer, it ignites the propellant which is in the inner high pressure chamber. The combustion gases are then released by diffusors into the outer low pressure chamber. It is the force of the gases in the low pressure chamber which drive the projectile, which is set on top of this named chamber, through the barrel.

Fig. 3.3: Cut through fired 40 x 46 mm grenade

Concerning internal ballistics, recoil, mechanical stress on the weapon and quality control of the grenades, it is always the maximum pressure in the outer low pressure chamber to consider.

40 x 46 mm ammunitions exist in two distinctive qualities: One is warhead (HE) grenades with a payload of around 200 grams - typically an explosive projectile - and working with low chamber pressures of approx. 200 bar. The other is less lethal (LL) munitions with low mass kinetic energy projectiles or a chemical agent as payload; their working pressure is around four times lower than with HE grenades. The GL-06 is designed for use with LL munitions but strong enough to withstand the pressure of a HE grenade.
4. Compatible ammunitions

Compatibility is limited by dimensions and maximum pressures. The critical dimensions are outlined in fig. 4.1. Note that the cartridge overall length is of no importance: 40 x 46 mm munitions of any length can be loaded in the GL-06.

![Diagram of compatible dimensions]

Fig. 4.1: Compatible dimensions

Regarding the pressure compatibility, the maximum pressure in the low pressure chamber at extreme service conditions (ESCP) is to consider. ESC is the most dangerous conform condition of ammunition (according to ammo manufacturer specs), e.g. after 24 h high temperature storage.

In an inspection lot of ten cartridges, the average (m) and the standard deviation (s) of ESCP must comply with

\[ m_{ESCP} + 2.91 \times s_{ESCP} \leq 230 \text{ bar} \]
5. Ballistic data

The sights of the GL-06 launcher are set point blank to 25 m with SIR 40 mm (B&T BT-23510); ballistic data below.

**WARNING:** CTS manufactures a variety of CTS less lethal products which are under pressure, pyrotechnic, incendiary, emit projectiles, generate smoke, or are explosive in nature. When used in accordance with CTS training guidelines and the individual agency's policy, they are intended to cause varying degrees of pain and injury, which are temporary. These products are restricted to law enforcement, corrections, and military personnel and are used to gain compliance, disperse crowds, restore order, or temporarily incapacitate dangerous persons. In rare circumstances, if used incorrectly, CTS less-lethal products may cause damage to property, serious bodily injury or death. Therefore, any person using the force option depicted on this page should receive proper training to ensure the safest and most effective use.

Innovative 4-Bolt Connection System replaces barrel nut for increased stability and uniform connection between the handguard, barrel, and receiver.

18" chrome-lined, heavy-phosphate-coated Strength-to-Weight profile barrel for accuracy and extended range.

Independently ambidextrous GRIP-N-RIP charging handle has anti-gas features for a better shooting experience.

The DD5 V4, chambered in either 6.5 Creedmoor or 7.62x51mm NATO, provides users of the Daniel Defense semi-automatic platform even greater long range precision shooting capability. The highly popular 6.5 Creedmoor takes advantage of superior ballistic coefficients to offer both flatter trajectories and reduced wind drift at levels normally reserved for much heavier recoiling long action calibers.

### ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The 12-Gram Distraction Device® Reload w/ Safety Clip utilizes an M201A1 type fuze that was designed for use with the Distraction Device reloadable steel body. The safety clip is designed to keep the pull-pin against the device body to prevent the pin from protruding and possibly snagging on other objects. The 12-Gram Distraction Device Reload w/ Safety Clip is only to be used when properly inserted and tightened into the Distraction Device body. **DO NOT discharge the reload without the use of the steel body. The Distraction Device body should only be deployed in areas that have been visually observed to be clear of potential hazards. It is recommended that the immediate area for deployment be visually affirmed to be clear of personnel and that the device is delivered so that the ports are free from obstruction. If the bottom port is obstructed by an object or wall, the device body may move. The cleared area for deployment should be 5 - 6 feet around which the device is expected to come to rest.**

A modified version of the 12-Gram Distraction Device Reload w/ Safety Clip is available for use in high humidity environments that incorporates a water resistant charge tube. These products are designated by "HH" after the part number. The standard render safe practice involving 24 hour water submersion will no longer be effective for the high humidity devices, please consult the render safe procedure for incineration in the instructions.

---

**WARNING**

This product can expose you to chemicals including Lead, Arsenic, and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

**WARNING:** TO BE USED BY TRAINED LAW ENFORCEMENT, CORRECTIONAL OR MILITARY PERSONNEL WHO HAVE SUCCESSFULLY COMPLETED A TRAINING PROGRAM FOR THE DEPLOYMENT OF DISTRACTION DEVICE® UNITS. IMPROPER USE OF THE DISTRACTION DEVICE UNIT CAN RESULT IN DEATH OR SERIOUS BODILY INJURY.

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The Pocket Tactical Grenade is a quick burning, reduced volume, continuous discharge grenade available in OC, CN, CS, and Saf-Smoke™. Pelletized chemical agent or smoke is discharged through one (1) gas port located on the bottom of the canister.

The Pocket Tactical Grenade is a small, lightweight, easily carried device that provides a medium volume of chemical agent or smoke for certain situations. It was designed with the tactical team in mind for distraction, concealment, rescue, or signaling. The pocket grenade is not specifically intended as a crowd management device; however, it can be used in chemical configurations in conjunction with larger smoke canisters to "piggy back" chemical agent into a predominately smoke environment. This device should be deployed utilizing wind advantage.

It should NOT be deployed onto rooftops, in crawl spaces, or indoors due to its fire-producing capability. Hand throw or launch. The fuze should be removed prior to inserting the grenade into the launching cup, and then the open threaded end is inserted into the launching cup first. Launching of grenades will provide deploying officers additional standoff distances. This small canister affords good coverage and may also be used as a distraction device.

It may also be used as a distraction to focus attention away from other activities.

WARNING
This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

WARNING: THIS PRODUCT IS TO BE USED ONLY BY AUTHORIZED AND TRAINED LAW ENFORCEMENT, CORRECTIONS, OR MILITARY PERSONNEL. THIS PRODUCT MAY CAUSE SERIOUS INJURY OR DEATH TO YOU OR OTHERS. THIS PRODUCT MAY CAUSE SERIOUS DAMAGE TO PROPERTY. HANDLE, STORE AND USE WITH EXTREME CARE AND CAUTION. USE ONLY AS INSTRUCTED.

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The Spede-Heat™ Grenade is a high volume, continuous discharge grenade available in OC, CN or CS.

In the OC, CN and CS configurations, pelleted chemical agent is discharged through four (4) gas ports located on top of the canister, three (3) on the side, and one (1) on the bottom.

Designed specifically for outdoor use in crowd control situations, the Spede-Heat™ Grenade is built on the old style larger canister. It is a high volume continuous burn device that expels its payload in approximately 20 - 40 seconds from a single source. The longer burn time may allow for throwback by individuals wearing burn protection such as a welder’s mitt. The canisters may be protected from advancing individuals with the use of less lethal impact munitions. The device should be deployed utilizing wind advantage.

It should NOT be deployed onto rooftops, in crawl spaces, or indoors due to its fire-producing capability. Hand throw or launch. Launching of grenades will provide deploying officers additional stand-off distances. Affords very good coverage for large outdoor areas.

WARNING

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

WARNING: This product is to be used only by authorized and trained law enforcement, corrections, or military personnel. This product may cause serious injury or death to you or others. This product may cause serious damage to property. Handle, store and use with extreme care and caution. Use only as instructed.

Application: Entry, Patrol/Duty | Meets FBI Protocol

Hornady® 5.56 NATO TAP SBR® is designed specifically for 10.5"-11.5" short-barreled rifles by using proprietary propellants and a bullet designed with technology from industry leading Critical Duty™ FlexLock® bullets. TAP SBR® ammunition provides exceptional performance in suppressed or unsuppressed SBR's. With virtually no flash or residue, TAP SBR® ammunition dramatically reduces sound signature, will not foul or overheat suppressors, delivers uniform velocity and accuracy, and provides controllable rate of fire in automatic platforms. TAP SBR® is the optimum choice for 10.5"-11.5" barreled 5.56 rifles.

THE WORLD'S FIRST PURPOSE BUILT TACTICAL sUAS.

AVAILABLE FROM

SOLE SOURCE NORTH AMERICAN DISTRIBUTOR
LOKI Mk2

Designed and built in conjunction with several of the world’s top counter-terrorism teams, LOKI Mk2 solves all problems associated with the tactical use of commercial UAS.

Purpose built for close quarter indoor tactical scouting missions, LOKI Mk2 features a highly sensitive Day-Night IR sensor camera giving it the ability to fly and see in complete darkness.

Mk2 Features

- Forward-facing 0.0008 lux day/night
- Camera with 150° wide angle field of view
- On board extremely sensitive HD microphone
- Integrated flight stability/hover system using only onboard sensors
- Front and bottom selectable and dimmable IR LED’s
- Turtle mode allowing the drone to automatically self-right in the event of a crash
- Integrated connector for additional payloads, sensors and actuators
- Ruggedized, user repairable cloverleaf body design

GCS Features

- Purpose-built flight controller requiring no internet service, GPS, cellular phone or tablet
- No forced software or firmware updates providing 100% readiness
- Analog video and flight controls preventing lag and screen freezes
- AEM control signal and scrambled video signal/relay
- Controls up to four LOKI UAS simultaneously from a single GCS
- Ergonomic and compact design for intuitive flight control
- No flight training required
What end-users are saying about the LOKI Mk2

LOKI 2.0 alone is a game changer for interior deployments. LOKI 2.0 plus a canine takes it to another level of effectiveness.

### BATTERY

- **Nominal Capacity:** 4220 mWh
- **Voltage:** 11.4 V
- **Internal Battery Type:** LiPo
- **Net Weight:** 145g
- **Operating Temperature:** -20°C to 40°C
- **Storage Temperature:** Less than 3 months: -4° to 11°C / 20° to 50°F

### DJI GO 4 APP

- **Device System Requirements:**
  - Mobile Device: Android 4.0.0 (or later), iOS 8.0 (or later)
  - Min. System: Android 4.0.0 (or later), iOS 8.0 (or later)
- **Supported Mobile Devices:**
  - Android: Samsung Galaxy S5, S6, S7, S8, Note 5, Nexus 6, 6P, Pixel 2, Pixel 2 XL, LG V20, V30, Huawei P9, P10, P20, P30, P30 Pro, Xiaomi Mi 8, Mi Mix, Mi MIX 2S, MI MIX 3, Mi Mix 2, Mi MIX, Mi Note 2, Mi Note 3, Mi Note 4, Mi Note 5, Mi Note 6, Mi Note 7, Mi Note 6 Pro; iPhone 8, 8 Plus, iPhone X, iPhone XR, iPhone XS, 11, 11 Pro, 11 Pro Max, iPad Air, iPad Mini 1 / iPad Mini 2 / iPad Mini 3 / iPad Mini 4 / iPad Air 2 / iPad Pro 9.7 / iPad Pro 10.5 / iPad Pro 12.9 / iPad Pro 11 / iPad Pro 10.5

### Gimbal Installation

- **Supported Mounts:**
  - Downward Gimbal Mount
  - Downward Dual Gimbal Mount
  - Upward Gimbal Mount
  - Support for additional devices available as testing and development continues.

### Charger

- **Model:** D302100
- **Input Voltage:** 100V-240V, 50/60Hz
- **Rated Power:** 20W

### Forward Vision System

- **Max Detectable Distance:** 30 meters
- **Power Consumption:** 2.5W
- **Max Detectable Distance:** 50 meters
- **Obstacle Avoidance:** Yes
- **Obstacle Avoidance Type:** Dual sensor/3D depth

### Downward Vision System

- **Velocity Range:** 0.0 to 7.28 m/s
- **Altitude Range:** 0.0 to 8.75 m
- **Surrounding View:** True to 360 degrees

### Upward Infrared Sensor

- **Distance Sensing Range:** 0.15-16.4 feet (0.5-5 m)
- **FOV:** 90°
- **Operating Environment:** Largely diffuse and reflective obstacles (reflectivity >70%)

### Cendence

- **Type:** Gimbal
- **Operating Frequency:** 12 MHz
- **Max Transferrable Distance:** 1 km
- **EIRP:** 24 dBm (max)
- **Power Supply:** 12VDC, 150W
- **Charging:** 210W (Power Wall/Power Station)
- **Input Ports:** 1 x USB-C, 1 x HDMI, 1 x 3.5mm Audio, 1 x LAN, 2 x 12V DC, 1 x 12V AC
- **Extended Battery:** 100Wh, 13200mAh
- **Flight Time:** 30 minutes

### DJI GO 4 APP

- **Name**: Mobile Device System Requirements
- **Supported Mobile Devices**

**iOS**: iPhone 6s, iPhone 6s Plus, iPhone 6, iPhone 6 Plus, iPhone 5s, iPhone 5c, iPhone 5, iPad Air, iPad Air 2, iPad Mini 4, iPad Pro 9.7, iPad Pro 10.5, iPad mini 3, iPad mini 2, iPad mini 1 - Cellular, iPad mini 4 (Wi-Fi + Cellular, Wi-Fi + Cellular, Wi-Fi + Cellular); iPad Pro 9.7 - Cellular, iPad Pro 10.5 and iPad Pro 12.9 - Cellular; iPad Air 2 and iPad 4 - Wi-Fi + Cellular; iOS 11.0.1 and above.

**Android**: Samsung Galaxy S8, S8+, S7, S7 Edge, S6; HTC M10, M9, M8, M7; LG G5; Google Pixel 2, Google Pixel, Google Pixel XL, Google Pixel 2 XL, Google Pixel 3, Google Pixel 3 XL; Moto G Plus, Moto X Play, Moto X Style; Huawei Nova 2, Nova 2 Plus, Honor 8; iPhone 7, iPhone 6s, iPhone 6; Galaxy S7, S6, S5, Note 5, Google Nexus 7, Nexus 10, Google Nexus 6, Moto G4 Plus, Moto G4, Moto G3, Moto G2, Moto G; Sony Xperia Z3, Z4, Z5, Z6, Smartisan T1, T2, T3.

*Support for additional devices available at testing and development completes.

MATRICE 200 SERIES FAQ
Home / Products / Matrice 200 Series / FAQ

AIRCRAFT
1. What cameras and Gimbal is the M200 series compatible with?
2. Does the M200 series have an Obstacle Avoidance/Flight Autonomy system?
3. What is the difference between the M200, M200 and M600?
4. Is a case included with my M200 Series drone?
5. What is IP43 protection rating, and in what scenarios can the Matrice 200 Series be protected under this rating?
6. Can I use the Matrice 200 Series on rainy days? And what are some factors to consider when flying in rainy weather?
7. Will be covered if my aircraft incurs water damage?
8. Does my M200 Series drone to be regularly checked when flying in sandy environments?
9. Can I carry the M200 batteries on a commercial airplane?
10. What happens if one battery fails?
11. For the M210 RTK model, is there any extra setup required for this unit?

APPLICATIONS
1. I'm a filmmaker, is this the best option for me?
2. I'm a power line, telecom tower inspector and worry about interference affecting the safety of my inspection, which M200 Series model and payload will help me operate more safely?
3. My business is interested in integrating drones into our business, where can we learn more?

https://www.dji.com/matrice-200-series/info
PAYLOADS
1. What cameras are compatible with the M200 series?

2. What dual gimbal configurations are supported by the M210 models?

3. How do I mount an upward payload?

4. Can you fly with both the XT and Z30 at the same time?

5. Can you mount a camera upwards and downwards at the same time?

6. Can the Zenmuse XT camera be used with the M200 Series platform?

SOFTWARE
1. What mobile software programs are compatible with the M200 series?

2. What’s new in the DJI Pilot app?

3. What programs can I use for creating reproducible flight plans for automated flight?

4. Where can I learn more about DJI FlightHub?

OTHER
1. How long does it take to charge a remote controller? How long does it last on a full charge?

2. Does my M200 Series drone come with a Micro SD card?

3. What is the latency of the transmission system?

4. Can you use batteries charged at different levels?

5. Do I need to pair the batteries?

6. Does the M200 Series support the Adobe CinemaDNG and Apple ProRes?

7. Does the M200 have a RTH function?

8. How do I enable autofocus?
# Zenmuse Z30 Specifications

## General
- **Name**: Zenmuse Z30
- **Dimension**: 132x137x61 mm
- **Weight**: 956 g

## Camera
- **Sensor**: CMOS, 1/2.8``
- **Effective pixels**: 2,17 M
- **35mm Optical Zoom**: 31.5x (Optical 1.2x, Zoom 26.2x)
- **Zoom Movement Speed**: Optical Only
  - Optical Wide: 0.8x, Optical Tele: 5.4x/sec
  - Digital Wide: 0.8x, Digital Tele: 1.4x/sec
- **Image Stabilizer**: Yes, Electronic
- **FOV**: 41.7° (Horizontal), 23.9° (Vertical)
- **Digital Zoom**: 8x
- **Max Working Distance**: 12 m–1506 m
- **Photo Resolution**: JPEG
- **Video Resolution**: 60fps, 4K
- **Still Photography Mode**: Capture, Record, Playback
- **Still Photography Mode**: Single shot, Burst, Expose, Art Frames, Interval
  (1/30/1/15/1/50/100/4sec)
- **Exposure Mode**: Manual, Shutter priority, Aperture priority
- **Exposure Compensation**: ±2.0 (1/3 increments)

## Gimbal
- **Angular Vibration Range**: 360°
- **Direction**: Pitch: +180° to -90°, Yaw: ±90°
- **Pitch**: -15° to +15°, Yaw: ±30°, Roll: +90° to -50°
- **Pitch**: ±60° to ±60°

## Environmental
- **Operating Temperature**: -14°F to 113°F (-26°C to 45°C)
- **Non-Operating Temperature**: -4°F to 140°F (-20°C to 60°C)

---

[https://www.dji.com/zenmuse-z30/info](https://www.dji.com/zenmuse-z30/info)
1. What kind of zoom does the Zenmuse Z30 have? How much does it zoom by?

2. Can the Zenmuse Z30 be used on the Osmo handle?

3. What applications and what kind of specific scenarios are the Z30 suited for?

4. Is the Zenmuse Z30 compatible with the Inspire series?

5. What is the difference between the Zenmuse Z30 and Zenmuse Z3?

6. Will there be any noise shake when using the Zenmuse Z30?

7. What intelligent features does the Zenmuse Z30 support when used with the DJI Matrice 600?
ZENMUSE XT

UNLOCK THE POSSIBILITIES OF SIGHT

Thermal imaging from the air has never been as easy as it is with the DJI Zenmuse XT. By combining DJI's unrivaled expertise in gimbal technology and image transmission with the industry-leading thermal imaging technology of FLIR, the Zenmuse XT is the ultimate solution for rapid and reliable aerial thermal imaging. Capture faster, with pinpoint precision, over large areas, then save them for analysis and reporting.

Introducing the DJI Zenmuse XT

ZENMUSE XT SPECS

GENERAL
Model: Zenmuse XT
Dimensions: 112 mm x 74 mm x 102 mm
Weight: 270g

CAMERA
- Thermal Imaging
- Real-time Video/Display Formats: NTSC/PAL
- Analog Video Display Formats: NTSC/PAL
- Spectral Band: 8.3 μm
- Full Frame Range: 30 m
- Exposable Frame Rates: 30 fps
- Scene Range (High Gain): 30 m
- Scene Range (Low Gain): 30 m
- ISO Sensitivity: 400-512
- Temperature Sensitivity: 0.01°C
- Uncooled VDSR: 0.01°C

GIMBAL
- Angular Vibration Range: ±6°
- Mount: Detachable
- Controllable Range: Tilt: ±30°, Pan: ±15°
- Mechanical Range: Tilt: ±45°, Pan: ±120°
- Max Continuous Speed: 120 ms/

IMAGE PROCESSING & DISPLAY CONTROLS
- NTSC/PAL: Yes
- Digital Zoom: Yes
- Color & Monochrome: Yes
- Digital Zoom: 4X

1/8/2018
What is the difference between infrared camera and general camera?

2. Whether the aperture, focal length and shutter of ZENMUSE XT camera can be adjusted?

3. Whether ZENMUSE XT is able to take photos and record video simultaneously?

4. How long is the flight time of Inspire 1 modified with ZENMUSE XT?

5. What kind of equipment does ZENMUSE XT Camera support?

6. Can the ZENMUSE XT camera be used with the M200 Series platform?

7. Can the lens of ZENMUSE XT Camera be replaced?

8. Does the camera come with a standard SD card?

9. What is DDE?

10. What is SSDP?

11. Why the maximum resolution is only 640 x 512?

12. Does the camera support 4K video recording?

13. What is Zenmuse XT's video format?

14. What is the option 'Palette'?

15. What is the option 'Scene'?

16. What is the option 'VOL'?

17. What is the 'isotherm' mode?

18. What is TIF format image?

19. What kind of softwares can open TIF format images?

20. What is the accuracy and measurement range of TIF format images?

21. What factors will affect temperature?
ZENMUSE XT EXPORT

* Slow-rate thermal cameras (FLIR Tau 336 and 640 9 Hz models) sold by DJI are controlled under Department of Commerce, Bureau of Industry and Security Export Control Classification Number (ECCN) 6A993. These cameras may not be exported or re-exported to countries subject to U.S. economic sanctions, currently including Cuba, Iran, North Korea, Sudan, Syria, or the Crimean region of Ukraine. The cameras may not be transferred to prohibited parties or exported for a prohibited end use, as described in the U.S. Export Administration Regulations (EAR, 15 C.F.R., Parts 730 - 774).

* Full-rate thermal cameras (FLIR Tau 336 and 640 30 Hz models) sold by DJI are controlled for export under ECCN 6A003.b. These cameras may not be exported or re-exported to any country other than Canada without authorization from the U.S. government (in the form of a license or through use of a valid license exception). The cameras may not be transferred to prohibited parties or exported for a prohibited end use, as described in the EAR.

* For additional information regarding export restrictions applicable to these products, consult the EAR and the various sanctions regulations administered by the U.S. Department of Treasury's Office of Foreign Assets Control (31 C.F.R., Parts 501 - 598).

Mavic 2 Enterprise Advanced

Aircraft

Takeoff Weight (Without Accessories) 909g
Max Takeoff Weight 1100g

Dimensions (LxWxH)
Folded: 214x91x44mm
Unfolded: 322x242x84mm
Unfolded+Spotlight: 322x242x114mm
Unfolded+Beacon: 322x242x101mm
Unfolded+Speaker: 322x242x140mm
Unfolded+RTK Module: 322x242x125mm

Diagonal Distance 354 mm

Max Ascent Speed
6 m/s (S-mode)
5 m/s (P-mode)
4 m/s (S-mode with accessories)
4 m/s (P-mode with accessories)

Max Descent Speed
Descend Vertically
5 m/s (S-mode)
4 m/s (P-mode)
Tilt
7 m/s (S-mode)
4 m/s (P-mode)

Max Speed
72 kph (S-mode, without wind)
50 kph (P-mode, without wind)

Max Service Ceiling Above Sea Level 6000 m

Max Flight Time
31 min (measured while flying at 25 kph in windless conditions)
28 min (RTK module attached)
25 min (with beacon turned on)
30 min (with beacon turned off)
24 min (with spotlight turned on)
28 min (with spotlight turned off)
27 min (with speaker turned on)
28 min (with speaker turned off)

Max Wind Speed Resistance 10 m/s (scale 5)

Max Tilt Angle
35° (S-mode, with remote controller)
25° (P-mode)

Max Angular Velocity
200°/s (S-mode)
100°/s (P-mode)

Operating Temperature
-10° to 40° C

GNSS
GPS+GLONASS

Hovering Accuracy Range
Vertical:
± 0.1 m (with RTK)
± 0.1 m (with Vision Positioning)
± 0.5 m (with GPS Positioning)
Horizontal:
± 0.1 m (with RTK)
± 0.3 m (with Vision Positioning)
± 1.5 m (with GPS Positioning)
Operating Frequency 2.400-2.4835 GHz; 5.725-5.850 GHz

Transmitter Power (EIRP) 2.400-2.4835 GHz
FCC: ≤26 dBm;
CE: ≤20 dBm;
SRRC: ≤20 dBm;
MIC: ≤20 dBm
5.725-5.850 GHz
FCC: ≤26 dBm;
CE: ≤14 dBm;
SRRC: ≤26 dBm

Internal Storage 24 GB

**M2EA Thermal Camera**

**Sensor** Uncooled VOx Microbolometer

**Focal Length** Approx. 9 mm
35 mm format equivalent: Approx. 38 mm

**Sensor Resolution** 640×512 @30Hz

**Accuracy of Thermal Temperature** Measurement: ±2°C or ±2%, whichever is greater.

**Scene Range** -40°C to 150°C (High Gain)
-40°C to 55°C (Low Gain)

**Digital Zoom** 16×

**Pixel Pitch** 12 μm

**Spectral Band** 8-14 μm

**Photo Format** R-JPEG

**Video Format** MP4

**Metering Method** Spot Meter, Area Measurement

**FFC** Auto/Manual

**M2EA Visual Camera**

**Sensor** 1/2" CMOS, Effective Pixels: 48 M

**Lens** FOV: 84°
35 mm format equivalent: 24 mm
Aperture: f/2.8
Focus: 1 m to ∞

**ISO Range** Video: 100-12800 (auto)
Photos: 100-1600 (auto)

**Digital Zoom** 32x

**Max Image Size** 8000×6000

**Still Photography Modes** Single shot, Interval: 2/3/5/7/10/15/20/30/60 s
Panorama, Sphere

**Video Resolution** 2560×1440@30fps
1920×1080@30fps

**Photo Format** JPEG

**Video Format** MP4

**Gimbal**
| Mechanical Range          | Tilt: -135° to +45°

|                         | Rated Power 15W  
|                         | Charging time: 2 hr (with a USB charger at 12V/2A) |
| Operating Current/Voltage | 1800mA – 3.85V |
| Battery Life            | Built-in Battery Approx. 2.5 hr |
Operating Temperature: -20°C - 40°C

RC Size:
- Folded without Joystick: 177.5 x 121.3 x 40 mm
- Unfolded with Joystick: 177.5 x 181 x 60 mm

Weight: Approx. 630 g

Intelligent Flight Battery:
- Capacity: 3850 mAh
- Voltage: 15.4V
- Max Charging Voltage: 17.6V
- Battery Type: LiPo
- Energy: 59.29 Wh
- Net Weight: 297g
- Charging Temperature: 5°C - 40°C
- Operating Temperature Range: -10°C - 40°C
- Heating Methods: Manual Heating, Auto Heating
- Heating Temperature: -20°C - 6°C
- Heating duration: 500s (Max)
- Heating Power: 55W (Max)
- Charging Time: 90 mins
- Max Charging Power: 80W

RTK Module:
- Dimensions: 69 mm x 69 mm x 59mm
- Connections: Micro USB Port
- RTK Positioning Precision:
  - In RTK FIX: 1cm+1 ppm (Horizontal)
  - 1.5cm+1 ppm (Vertical)

M2EA Spotlight:
- Dimensions: 68x60x41mm
- Connections: Micro USB Port
- Operating Range: 30 m
- Power: Max 26W
- Illuminance: FOV17°, Max: 11 lux @ 30m Straight

M2EA Beacon:
- Dimensions: 68mm x 40mm x 27.8mm
- Connections: Micro USB Port
- Power: Avg. 1.6W
Controllable Range: 5000 m

Light Intensity: Min Angle: 55 cd; Light Intensity: 157 cd

M2EA Speaker

Dimensions: 68×52×65 mm
Connections: Micro USB Port
Power: Max 10W
Decibel: 100 dB at 1 meter distance
Max Bitrate: 16kbps

SD Cards

Supported SD Cards: Micro SD™
Supports a microSD with a capacity of up to 128 GB.
A UHS Speed Grade 3 rating microSD card is required.

APP / Live View

Video Transmission System: OcuSync 2.0
Mobile App: DJI PILOT (Android Version)
Live View Quality: Remote Controller;
720p@30fps / 1080p@30fps
Max Live View Bitrate: 40Mbps
Latency: 120-130 ms
Required Operating System: iOS 10.0 or later Android 5.0 or later

Others

Footnotes:

[1] The accuracy of the temperature measurement is measured at a distance of 5m against a blackbody with an emissivity of 0.95 under ideal conditions. The actual accuracy is also affected by various environmental factors such as temperature and humidity, and needs to be corrected by post-processing software. Under ideal conditions, the temperature accuracy can reach ±2°C or ±2%, whichever is greater.

[2] Omnidirectional Obstacle Sensing includes left/right, up/down, and forward/backward obstacle sensing. Sensing for left/right directions is only available in Tripod Mode. Omnidirectional Obstacle Sensing does not fully cover the circumference of a 360-degree arc. And left and right obstacle sensing system only work in specific modes and environments. DJI warranty does not cover any loss caused by crashing when flying left or right, even when Tripod mode is activated. Please be aware of your surroundings and App notifications when operating the Mavic 2 to ensure safety.
PHANTOM 4 PRO
VISIONARY INTELLIGENCE. ELEVATED IMAGINATION.

PHANTOM 4 PRO SPECS

AIRCRAFT
- Weight (Battery & Propellers Included): 1,248 g
- Diagonal Size (Propellers Excluded): 350 mm
- Max Ascent Speed: S-mode: 6.5 m/s, P-mode: 5 m/s
- MaxDescent Speed: S-mode: 4 m/s, P-mode: 3 m/s
- MaxSpeed: S-mode: 45 m/s (157 kph), A-mode: 30 m/s (109 kph)
- MaxAngular Speed: 250°/s
- Max Service Ceiling Above Sea Level: VHSV 70 km (43.5 miles)
- Max Speed Resistance: 19 m/s
- Max Flight Time: Approximately 30 minutes
- Operating Temperature Range: -32° to 50° (-20° to 122°F)
- Hover Accuracy Range: Vertical ±1.2 m (with Vision Tracking) ±1.2 m (with GPS Positioning) ±1.2 m (with Vision Tracking) ±1.5 m (with GPS Positioning)

GIMBAL
- Stabilization
- Controllable Range
- Max Control & Angular Speed
- Angular Control Accuracy
- 3-axis (pitch, roll, yaw)
- Pitch: -90° to +90°
- Roll: 90°
- Yaw: ±120°

INFRARED SENSING SYSTEM
- Obscure Sensing Range
- FOV
- Measuring Frequency
- Operating Environment
- 0.6 - 23 μm (0.2 - 7 μm)
- 70° (Horizontal), 45° (Vertical)
- 10 KHz
- Surface reflectivity: metallic material 0.6% - 23% (wall, glass, mirror 0.9 - 1.9%)

REMOTE CONTROLLER
- Operating Frequency
- Max Transmission Distance
- 2.4GHz - 2.4835GHz and 5.725 - 5.825 GHz
- 2.4GHz - 2.4835GHz ( indoors, free of metal obstructions) FCC: 3.3 FEET CE: 3.2 FEET
- 5.725 - 5.825GHz ( outdoors, free of metal obstructions) FCC: 6.5 FEET CE: 5.9 FEET
- FCC: 1.2 M (2400)
- CE: 1.1M (2200)
- FCC: 3.3 M (5400)

PHANTOM 4 PRO FAQ
https://www.dji.com/phantom-4-pro/info

PRODUCT
1. What are the main differences between the Phantom 4 and Phantom 4 Pro?

2. What, if any, are the main differences between the Phantom 4 Pro and Phantom 4 Pro Obsidian?

3. Which Micro SD cards are supported?

https://www.dji.com/phantom-4-pro/info

1/8/2018
DJI Phantom 4 Pro – Specs, FAQ, Tutorials and Downloads

4. Does the Phantom 4 Pro Obstacle sense with similar technology as gimbal accessories?

CAMERA

1. What is new about the Phantom 4 Pro’s camera?

2. What advantages does the Phantom 4 Pro have for shooting video?

3. What is the pixel size and format of the photos captured while recording video?

4. What’s the advantage using the new H.265 video format?

5. What’s the benefit of having a hardware image stabilizer?

6. Does the Phantom 4 Pro support live video streaming?

7. Are the main features of the Phantom 4 Pro camera lens?

OBSTACLE SENSING SYSTEM

1. When do the infrared sensing system work during flight?

2. How do the infrared sensing system work?

3. What improvements have been made to the Phantom 4 Pro’s obstacle sensing system?

4. Is there any difference between the front and rear obstacle sensing systems?

REMOTE CONTROLLER

1. Are the Phantom 4 and Phantom 4 Pro remote controllers compatible with each other?

2. What’s new in the Phantom 4 Pro remote controller?

3. Can I detach the integrated display from the Phantom 4 Pro remote controller?

4. Can I connect an iOS device or Android device to the Phantom 4 Pro remote controller to use DJI GO 4?

5. Does the Phantom 4 Pro remote controller have a built-in loudspeaker and microphone?

6. What is the resolution of the Phantom 4 Pro remote controller display?

7. What apps are preloaded on the Phantom 4 Pro screen remote controller display?

8. What operating system does the Phantom 4 Pro remote controller display use?

9. Is the remote controller’s screen display’s brightness adjustable automatically or manually?

10. Can I download other apps onto the Phantom 4 Pro remote controller display?

11. Does the Phantom 4 Pro remote controller support Wi-Fi and Bluetooth connectivity?

https://www.dji.com/phantom-4-pro/info
INTELLIGENT FUNCTIONS
1. What are the new intelligent flight modes on the Phantom 4 Pro?
2. How is the Phantom 4 Pro's Smart Return Home improved?
3. How to use the new sensing?

PROPELION SYSTEM
1. Can we use Phantom 4 propellers on the Phantom 4 Pro?
2. How is the Phantom 4 Pro's propulsion system optimized?

VIDEO TRANSMISSION SYSTEM
1. What is the difference between Phantom 4 and Phantom 4 Pro Lightbridge systems?

BATTERIES AND BATTERY CHARGER
1. Are the Phantom 4 Pro batteries and battery charger compatible with the Phantom 4?
2. What is the capacity of the Phantom 4 Pro battery? How much has the flight time been extended compared to the Phantom 4?

FIRMWARE UPGRADE
1. During upgrading, if the level of flight battery or controller battery drops below 50%, will the upgrading process fail?
2. What if battery firmware is not consistent with the upgraded aircraft?

BUY PHANTOM 4 PRO
VISIONARY INTELLIGENCE, ELEVATED IMAGINATION.
OC DELIVERY IN CONFINED AREAS WITH SHORT TERM EFFECTS

OC VAPOR AEROSOL GRENADE

The Defense Technology® OC Vapor Aerosol Grenade delivers a very high concentration of Oleoresin Capsicum (OC) in a powerful mist. This inflames the mucous membranes and exposed skin, resulting in an intense burning sensation. Inhalation of the OC Vapor produces an immediate respiratory effect, which resolves within minutes when the subject is removed from the affected area to fresh air. Minimal decontamination of personnel or material is required after deployment. The OC Vapor Aerosol Grenade is ideal for cell extractions or barricade situations where the use of pyrotechnic, powder or liquid devices is not practical or desired.

FEATURES

- Delivers a very high concentration of OC in a powerful mist
- Immediate incapacitating effects
- Minimal decontamination
- Non-flammable
- For indoor use

WARNING: This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to http://www.bis.wi.gov.

  - approx. 3,100 g
  - approx. 120/170 g

**Subject to modification**
Armored Ford Transit Tactical Van

International Armored Group’s armored Ford Transit van offers the most interior volume in its class and has more interior room than many of the larger style SWAT vehicles. The interior configuration can accommodate various set-ups including a built-in command center that allows the vehicle to link to other departmental assets and provide live video feeds.

With many departments looking for a discrete approach to an armored vehicle, the armored Ford Transit van provides departments with safety and the payload capacity they need for personnel and equipment, as well as, the space required to effectively perform their jobs.

**Base Vehicle Specifications**
